SEQUENCE LISTING

Asst. Commissioner for Patents
Washington, D.C. 20231

Sir:

Applicants are submitting herewith a corrected sequence listing both in paper form and on a diskette. Inadvertently, during the preparation of the first sequence listing, the amino acid at position 2 was indicated as being Ser rather than the correct Leu. The present sequence listing makes this correction in SEQ ID Nos: 1, 5, 6 and 7. Applicants state that the contents of the paper form and the computer readable form are the same and where applicable, include no new matter as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b) or 1.825(d).

Respectfully submitted,
Bierman, Muserlian and Lucas
